ANSWERS TO SPECIFIC QUESTIONS	18
<i>Are the Scandinavian/Nordic and/or the European consumer markets ready for low GI claiming products in general?</i>	18
<i>Is the low GI concept only for diabetics /pre-diabetics or for all?</i>	18
<i>Is the scientific base strong enough to bring a "low GI"-sucrose concept to DS home markets (Scandinavia/Baltic) and to Europe?</i>	18
<i>Arabinose/xylose vs polyphenols, or better alternatives?</i>	19
<i>Soft claims / hard claims?</i>	20
<i>Individual ingredient claims vs. claim of impact in food & beverage products?</i>	20
<i>If yes to the above, what strategy should the client choose in bringing the concept to market?</i>	20
